Adventure Service Challenge Starting September for 5 Years plus

The Fundamentals of the Scheme

The Scheme enables children and young people to engage in new adventures, volunteering experiences and to challenge themselves to try as best as they can:

- To see life as an adventure and balance that adventure with their responsibilities.
- To journey into faith and self-belief.
- To help others through understanding people's needs and taking up volunteering opportunities.
- To accept and be equipped to face any challenges that life may present to them.

Janice, her daughter Kelly and her son Thomas are going to hike 152km across the Highlands of Scotland at the end of the month. We as a school are going to follow their enduring journey of mighty mountains & midgets!!

The school has recently been inspected, we are delighted and very proud with the outcome with which the school has been awarded the maximum license. The findings of the inspection are a real endorsement of the work that has been done and the journey that the school has been on. The staff have been recognised and praised for their hard work, care and commitment to the children at CIPS.
